

Application of HB-101

Potted plants, such as orchids, roses, cyclamens and alpine plants

Dilute HB-101 by 5,000 times with water. Irrigate with the solution as well as spray on the leaves once a week year-round.

**Potted Foliage &
Other Ornamental**

**Orchid,
Rose,
Camellia
Cyclamen,
Bamboo,**

A simple line drawing of a potted plant. The plant has several long, thin, arching leaves. It is shown in a simple rectangular pot. The drawing is in black lines on a white background.

Dilute HB-101 by 5,000 to 10,000 times of water, irrigate and spray on foliage once a week around a year.
